These links take you to individual web pages, one for each club in the Hawaii Region.

These pages are open for clubs to use any way they see fit and we highly recommend placing material in your club page and letting your members and any interested parties, potential new members etc. know the page exists.

Access: Clubs cannot place material directly into the club page but the Hawaii Region Webmaster will place whatever you want, in whatever form you want.

Send text and photos to:

[russlynch@mac.com](mailto:russlynch@mac.com)

### **Having Your Own Club Page**

One big advantage in having an Internet presence in addition to club bulletins is you can direct members and others to a huge amount of additional material you couldn't fit in a bulletin, such as:

- Photo galleries, with access to enlargements
- Video clips
- Files and other documents in PDF format
- Up to the minute club calendars, events notices etc.

# Facebook Group Page

## Hawaii Region, Y Service Clubs International

June 9, 2012

It's new, and it's very much under development, but it might turn into a useful communications and public relations device. That's our new Facebook Group page at: <http://www.facebook.com/groups/ysmenhawaii>

To post items, news, pictures, bulletins etc. into the group page you must be a member of the group and that means, first, you must have your own Facebook page. You can do that in a very minimal and private way with a page that nobody but you can post into, or you can develop your own full-on open Facebook page that anyone can access. Go to <http://www.facebook.com> for details.

To join this group, click Ask to Join Group at the upper right side of the group's page. You can also be added to a group by a friend who is already a member.

Our group requires approval of the administrator to enroll a new group member so you may have to wait for the admin to confirm your request.
